

Star Gold Corp Raises Capital

COEUR D'ALENE, Idaho, October 17th, 2017 -- Star Gold Corp. ("Star Gold" or the "Company") (OTC Markets: SRGZ) announced today that it completed a capital raise of \$1,079,885 through a private placement of the Company's shares of common stock and share purchase warrants. Members of management accounted for 25.5% of the raise. No brokers or other third-parties were involved in the offering; as such all monies will be available for use by the Company.

Star Gold has two remaining processes to complete prior to first, filing a Plan of Operations with the United States Forest Service (USFS), and then producing an EIS (Environmental Impact Statement). These two remaining processes are:

- Completing a baseline hydrological study of the project area; which includes drilling to locate depth to the water table.
- Completing basic engineering and design for the proposed mine and leach pads. This information will be compiled with other baseline and design information into the overall Plan of Operations.

Once these are steps have been completed and approval received from USFS, Star Gold intends to proceed to preparing a formal EIS. The completion of this current financing should provide adequate funding to complete the tasks remaining to finalize a Plan of Operations and preparation of an EIS.

Commenting on this capital raise, President of Star Gold, David Segelov, stated "As we continue to advance through the permitting process, Star Gold has been mindful of remaining sufficiently funded in order to progress with efficacy. Star Gold is pleased to have secured this funding and it is a testament to the quality of the project that so many existing shareholders have chosen to participate."
